MASTERS

TROUT CHAMPIONSHIP

TOURNAMENT RULES

- Artificial baits only. No live bait is to be used anywhere during the tournament. Any Power Bait is considered live and is not allowed. All soft plastic baits are also considered live and will not be allowed.
- This is a CATCH-and-RELEASE tournament. All trout will be released unharmed at the end of the tournament.
- No more than eight trout will be weighed in per team.
- In the case of a tie, the largest fish of the tying stringer determines the winner. All controversies will be settled by the Tournament Judges, Phil Lilley and/or Ryan Titus.
- All Missouri Fish & Game laws will be enforced. Brown trout are required to be 20 inches or longer. To measure a trout legally - shut the mouth and pinch the tail.
- Any brown caught, weighed in and killed negates any more browns from being counted towards that person's weight for the rest of the tournament. The only exception allowed is if the brown is a new Missouri state record.
- Creeks and feeder streams - namely Fall, Short, Cooper, Turkey, Coon, Roark, Bee and Bull Creeks - are restricted and may not be fished. No fishing will be allowed within two boat lengths inside these creek mouths. Any violation of this rule will result in disqualification.
- Contestants must fish from their boats. Contestants can leave their boats to use a bathroom or rest & warm up at a marina. Absolutely no wading.
- Each team will be required to DECLARE where they will fish, above Fall Creek or below Fall Creek. Those declaring above in the trophy area, they will not be allowed to weigh in any rainbows "in the slot" - between 12 and 20 inches. Those declaring below Fall Creek are not to go above Fall Creek at anytime during the tournament.
- Anyone cited for any fishing violations by the Missouri Department of Conservation during the tournament will be disqualified. In addition, anyone convicted of said violations will be barred from any future tournaments at Lilleys' Landing. Winners may be subject to a polygraph after the contest.
- Safety and tournament rules briefing will be held on Saturday at 7:45 a.m. on the dock at Lilleys'. The Missouri Water Patrol may supervise the start. Life jackets must be worn at the start of the contest. Live wells will be checked at each send off.
- Teams will leave in flights if necessary. Each flight will have the same amount of fish-time. Late arrivals will be penalized one ounce per minute at weigh in - no excuses. Trout must be weighed in before trailering boats.
- No chumming of any type will be tolerated. This means before, during or after the tournament.
